

THE SOUTH AFRICAN EARLY EVENING SKY LATE APR 2018

To find e.g. stars in the east,
face east and turn the map
so that **EAST** is at the bottom.

Circles show the position of the Moon

The Moon this month:
Apr 16th: new moon
Apr 22nd: first quarter
Apr 30th: full moon
May 8th: last quarter

The Sun rises in the east
and sets in the west
